Planning ahead for
retirement

EAP (213) 367-3562

Dinko Zidarich, LMFT

JoAlla Gold, LCSW

Objectives

- Explore attitudes and beliefs about retirement
- Discuss the phases of the retirement experience
- Review self-assessment tools
- Learn about resources for “whole person” retirement planning

What work does for you

- Structures time
- Provides social connections
- Provides mental stimulation
- Gives you a ready-made identity
- Gives you a sense of satisfaction

Retirement: A life transition

- Retirement is not a one-time event, or an extended vacation
- It is a major life transition — like adolescence
- Preparing for the self-searching and emotional change that may occur is essential to successfully negotiating retirement

Approaches to retirement

- Continuers
- Adventurers
- Searchers
- Easy gliders
- Engaged spectators
- Retreaters

Relationships

Many retirees find changing dynamics in their relationships

- They tend to be closer to their grandchildren than their children
- Good friendships become as important as or more important than family
- Closeness increases with living siblings, even if many years have passed without contact

Relationships

- Many people build their primary relationships through their jobs
- However, retirement can reduce or put an end to workplace relationships
- It is important to keep up relationships with family and friends outside of work in addition to nurturing the friendships cultivated while on the job

Communication

- Meaningful and successful communication is critical to the couple preparing for retirement and throughout retirement
- Lifestyle adjustments may need to be made, and good communication can help avoid mistakes and embarrassment
- Example: What does “I want to travel” mean to you? Your spouse? Have you discussed the meanings you each attach to this phrase?

SOURCE: American Psychological Association

Life satisfaction

- Most people change very little in life satisfaction viewpoints in retirement
- High life satisfaction developed in working years continues into retirement.
- Most people do not join in activities in which they were uninterested prior to retirement.
- Activity levels tend to decrease slightly from pre-retirement levels

SOURCE: American Psychological Association

Activity planning

- Give careful thought to what you would like to do during your retirement years
 - Travel
 - New hobbies
 - Continue education
 - Volunteer
- Set goals and formulate a plan

Active retirement living

Spending that free time

- Get a new job

COST FACTORS

- Depending on which health and dental plan you elect and which eligible dependent(s) you elect to cover, you may or may not have a monthly deduction from your monthly pension.
- Where you decide to live is another factor to consider. There are some plans that are only available to residents of California. When you move out of California your options for healthcare and dental care are limited to a PPO. (PPO can be used nationwide anywhere in the USA)

Turning 65? Need Medicare?

You and your spouse **must** enroll in **Medicare Part B** to continue your Department sponsored health plan

IBEW Local 18 requires **both** Medicare A & B

Contact Social Security at (800) 772-1213 at least **3 months prior** to your 65th birthday

Still working at 65 and over?

Contact the Health Plans Office **3 months prior** to your retirement date

- **Hospital Insurance** – covers in-patient hospital care
- You qualify if you have accrued 40 or more quarters of credits
- The Department does not recommend that you enroll in Part A if you are going to have to **pay** a premium
- If your spouse qualifies for Med A, you can too
- If you are enrolled in an IBEW Local 18 sponsored plan and want to keep it, you must enroll into Part A

- **Medical Insurance** – covers medical and surgical services
- The cost of your Medicare Part B is based on your income. Additionally, you may be assessed an income-related monthly adjustment amount (IRMAA)
- You and your spouse must be enrolled and maintain your Medicare Part B to be eligible to continue your LADWP or IBEW Local 18 medical plan
- If your Medicare Part B is terminated after enrollment, your medical plan will also be terminated.

- **Prescription Drug Coverage**
- IBEW Local 18 & DWP-Sponsored health plans are enhanced prescription drug plans
- Enrollment into a Medicare Part D plan through a 3rd party vendor (i.e., AARP, Humana, Cigna etc.) will cause you to lose your medical coverage and subsidy
- Based on your income from 2 years prior, CMS may charge an IRMAA
- Failure to pay CMS for the IRMAA for Medicare Part D will result in a loss of your health coverage

Timely enrollment in Medicare Part B is **critical** as late enrollment could result in a lifetime penalty charge from Medicare **and** the loss of your LADWP or Local 18 medical coverage

Group Pay & Reimbursement

Group Pay

- If you **do not** receive a Social Security check, the Department may pay your Medicare Part B premiums directly to the Center for Medicare & Medicaid Services
- You must submit the “*Medicare Premium Bill*” to the Health Plans Office **before** the due date

Reimbursement

- If you receive a Social Security Check, Medicare Part B Premiums are automatically deducted from your Social Security Check
- Your health subsidy must cover the entire cost of your Med B premium
- You must submit an annual benefits verification statement from Social Security indicating your Med B premium amount

Enrollment is not automatic and is effective the 1st of the following month Health Plans receives your paperwork.

The Health Plans Office will not make retro-payments or reimbursements.

Medicare Part B Reimbursement Requirements

- You must be a retiree or the spouse of a retiree
- Enrolled in Medicare Part B and receiving a monthly Social Security check
- Submit a copy of your annual benefits verification statement from Social Security that indicates your Medicare Part B premium
- Have enough remaining subsidy to cover the **entire** cost of the Medicare Part B premium
- Upon the death of the retiree, eligible spouses are not entitled to continue participation in the Reimbursement program

Retirement Benefits

You have earned enough credits to qualify for retirement benefits. To qualify for benefits, you earn "credits" through your work — up to four each year.

Your full retirement age is **67**, based on your date of birth: April 5, 1962. As shown in the chart, you can start your benefits at any time between ages **62** and **70**. For each month you wait to start your benefits, your monthly benefit will be higher—for the rest of your life.

These personalized estimates are based on your earnings to date and assume you continue to earn \$54,489 per year until you start your benefits. Learn more at ssa.gov/benefits/retirement/learn.html.

Personalized Monthly Retirement Benefit Estimates (Depending on the Age You Start)

Disability Benefits

You have earned enough credits to qualify for disability benefits. If you became disabled right now and you have enough recent work, your monthly payment would be about **\$2,083**. Learn more at ssa.gov/disability.

Survivors Benefits

You have earned enough credits for your eligible family members to receive survivors benefits. If you die this year, members of your family who may qualify for monthly benefits include:

- Minor child: **\$1,562**
- Spouse, if caring for a disabled child or child younger than age 16: **\$1,562**
- Spouse, if benefits start at full retirement age: **\$2,083**
- Total family benefits cannot be more than: **\$3,802**

Your spouse or minor child may be eligible for an additional one-time death benefit of **\$255**. Learn more at ssa.gov/survivors.

Medicare

You have enough credits to qualify for Medicare at age 65. Medicare is the federal health insurance program for people:

- age 65 and older,
- under 65 with certain disabilities, and
- of any age with End-Stage Renal Disease (ESRD) (permanent kidney failure requiring dialysis or a kidney transplant).

Even if you do not retire at age 65, you may need to sign up for Medicare within 3 months of your 65th birthday to **avoid a lifetime late enrollment penalty**. Special rules may apply if you are covered by certain group health plans through work.

For more information about Medicare, visit medicare.gov or ssa.gov/medicare or call **1-800-MEDICARE (1-800-633-4227)** (TTY 1-877-486-2048).

We base benefit estimates on current law, which Congress has revised before and may revise again to address needed changes. Learn more about Social Security's future at ssa.gov/ThereForMe.

Earnings Record

Review your earnings history below to ensure it is accurate because we base your future benefits on our record of your earnings. There's a limit to the amount of earnings you pay Social Security taxes on each year. Earnings above the limit do not appear on your earnings record. We have combined your earlier years of earnings below, but you can view your complete earnings record online with [my Social Security](https://my.ssa.gov). Total estimated Social Security and Medicare taxes paid over your working career based on your Earnings Record:

You paid: \$75,568	You paid: \$18,158

Earnings Not Covered by Social Security

You may also have earnings from work not covered by Social Security, where you did not pay Social Security taxes. This work may have been for federal, state, or local government or in a foreign country. If you participate in a retirement plan or receive a pension based on work for which you did not pay Social Security tax, it could lower your benefits. Learn more at ssa.gov/gpo-wep.

Important Things to Know about Your Social Security Benefits

- Social Security benefits are not intended to be your only source of retirement income. You may need other savings, investments, pensions, or retirement accounts to make sure you have enough money when you retire.
- You need at least 10 years of work (40 credits) to qualify for retirement benefits. Your benefit amount is based on your highest 35 years of earnings. If you have fewer than 35 years of earnings, years without work count as 0 and may reduce your benefit amount.
- To keep up with inflation, benefits are adjusted through "cost of living adjustments."
- If you get retirement or disability benefits, your spouse and children may qualify for benefits.
- When you apply for either retirement or spousal benefits, you may be required to apply for both benefits at the same time.
- If you and your spouse both work, use the [my Social Security](https://my.ssa.gov) Retirement Calculator to estimate spousal benefits.
- The age you claim benefits will affect the benefit amount for your surviving spouse. For example, claiming benefits after your full retirement age may increase the *Spouse, if benefits start at full retirement age* amount on page 1; claiming early may reduce it.
- If you are divorced and were married for 10 years, you may be able to claim benefits on your ex-spouse's record. If your ex-spouse receives benefits on your record, that does not affect your or your current spouse's benefit amounts.
- Learn more about benefits for you and your family at ssa.gov/benefits/retirement/planner/applying7.html.
- When you are ready to apply, visit ssa.gov/benefits/retirement/apply.html.
- The *Statement* is updated annually. It is available online, or by mail upon request.

Social Security in the Future

- Social Security is fully funded through 2035.
- Historically, the trust funds have reached the brink of exhaustion of assets, but Congress made substantial modifications to avoid this.
- Even if legislative changes are not made before 2035, the trust funds will still be able to pay 80 percent of each benefit due.
