### Relationships

Many retirees find changing dynamics in their relationships

- They tend to be closer to their grandchildren than their children
- Good friendships become as important as or more important than family
- Closeness increases with living siblings, even if many years have passed without contact

### Relationships

- Many people build their primary relationships through their jobs
- However, retirement can reduce or put an end to workplace relationships
- It is important to keep up relationships with family and friends outside of work in addition to nurturing the friendships cultivated while on the job

Planning ahead for retirement Resources for Living 10

#### **Communication**

- Meaningful and successful communication is critical to the couple preparing for retirement and throughout retirement
- Lifestyle adjustments may need to be made, and good communication can help avoid mistakes and embarrassment
- Example: What does "I want to travel" mean to you? Your spouse? Have you discussed the meanings you each attach to this phrase?

SOURCE: American Psychological Association

### Life satisfaction

- Most people change very little in life satisfaction viewpoints in retirement
- High life satisfaction developed in working years continues into retirement.
- Most people do not join in activities in which they were uninterested prior to retirement.
- Activity levels tend to decrease slightly from pre-retirement levels

# **COST FACTORS**

- Depending on which health and dental plan you elect and which eligible dependent(s) you elect to cover, you may or may not have a monthly deduction from your monthly pension.
- Where you decide to live is another factor to consider. There are some plans that are only available to residents of California. When you move out of California your options for healthcare and dental care are limited to a PPO. (PPO can be used nationwide anywhere in the USA)

You and your spouse must enroll in Medicare Part B to continue your Department sponsored health plan

IBEW Local 18 requires **both** Medicare A & B

Contact Social Security at (800) 772-1213 at least 3 months prior to your 65<sup>th</sup> birthday

Still working at 65 and over?

Contact the Health Plans Office 3 months prior to your retirement date

- Hospital Insurance covers in-patient hospital care
- You qualify if you have accrued 40 or more quarters of credits
- The Department does not recommend that you enroll in Part
   A if you are going to have to pay a premium
- If your spouse qualifies for Med A, you can too
- If you are enrolled in an IBEW Local 18 sponsored plan and want to keep it, you must enroll into Part A

- Medical Insurance covers medical and surgical services
- The cost of your Medicare Part B is based on your income.
   Additionally, you may be assessed an income-related monthly adjustment amount (IRMAA)
- You and your spouse must be enrolled and maintain your Medicare Part B to be eligible to continue your LADWP or IBEW Local 18 medical plan
- If your Medicare Part B is terminated after enrollment, your medical plan will also be terminated.

- Prescription Drug Coverage
- IBEW Local 18 & DWP-Sponsored health plans are enhanced prescription drug plans
- Enrollment into a Medicare Part D plan through a 3<sup>rd</sup> party vendor (i.e., AARP, Humana, Cigna etc.) will cause you to lose your medical coverage and subsidy
- Based on your income from 2 years prior, CMS may charge an IRMAA
- Failure to pay CMS for the IRMAA for Medicare Part D will result in a loss of your health coverage

Timely enrollment in Medicare Part B is **critical** as late enrollment could result in a lifetime penalty charge from Medicare **and** the loss of your LADWP or Local 18 medical coverage

#### **Group Pay & Reimbursement**

### **Group Pay**

- If you do not receive a Social Security check, the Department may pay your Medicare Part B premiums directly to the Center for Medicare & Medicaid Services
- You must submit the "Medicare Premium Bill" to the Health Plans Office before the due date

#### Reimbursement

- If you receive a Social Security Check, Medicare Part B Premiums are automatically deducted from your Social Security Check
- Your health subsidy must cover the entire cost of your Med B premium
- You must submit an annual benefits verification statement from Social Security indicating your Med B premium amount

Enrollment is not automatic and is effective the 1<sup>st</sup> of the following month Health Plans receives your paperwork.

The Health Plans Office will not make retro-payments or reimbursements.

# Medicare Part B Reimbursement Requirements

- You must be a retiree or the spouse of a retiree
- Enrolled in Medicare Part B and receiving a monthly Social Security check
- Submit a copy of your annual benefits verification statement from Social Security that indicates your Medicare Part B premium
- Have enough remaining subsidy to cover the <u>entire</u> cost of the Medicare Part B premium
- Upon the death of the retiree, eligible spouses are not entitled to continue participation in the Reimbursement program

#### **Your Social Security Statement**

WANDA WORKER February 2, 2023

#### **Retirement Benefits**

You have earned enough credits to qualify for retirement benefits. To qualify for benefits, you earn "credits" through your work — up to four each year.

Your full retirement age is 67, based on your date of birth: April 5, 1962. As shown in the chart, you can start your benefits at any time between ages 62 and 70. For each month you wait to start your benefits, your monthly benefit will be higher—for the rest of your life.

These personalized estimates are based on your earnings to date and assume you continue to earn \$54,489 per year until you start your benefits. Learn more at ssa.gov/benefits/retirement/learn.html.

#### **Disability Benefits**

You have earned enough credits to qualify for disability benefits. If you became disabled right now and you have enough recent work, your monthly payment would be about \$2.083. Learn more at sea.gov/disability.

#### Survivors Benefits

You have earned enough credits for your eligible family members to receive survivors benefits. If you die this year, members of your family who may qualify for monthly benefits include:

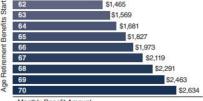

Minor child: \$1,562

Spouse, if caring for a disabled child or child younger than age 16: \$1,562

Spouse, if benefits start at full retirement age: \$2,083
Total family benefits cannot be more than: \$3,802

Your spouse or minor child may be eligible for an additional one-time death benefit of \$255. Learn more at <a href="mailto:ssa.gov/survivors">ssa.gov/survivors</a>.

#### Medicare

You have enough credits to qualify for Medicare at age 65. Medicare is the federal health insurance program for people:

- · age 65 and older,
- · under 65 with certain disabilities, and
- of any age with End-Stage Renal Disease (ESRD) (permanent kidney failure requiring dialysis or a kidney transplant).

Even if you do not retire at age 65, you may need to sign up for Medicare within 3 months of your 65th birthday to avoid a lifetime late enrollment penalty. Special rules may apply if you are covered by certain group health plans through work.

For more information about Medicare, visit medicare.gov or ssa.gov/medicare or call 1-800-MEDICARE (1-800-633-4227) (TTY 1-877-486-2048).

We base benefit estimates on current law, which Congress has revised before and may revise again to address needed changes. Learn more about Social Security's future at <a href="mailto:ssa.gov/ThereForMe">ssa.gov/ThereForMe</a>.

#### **Earnings Record**

Review your earnings history below to ensure it is accurate because we base your future benefits on our record of your earnings. There's a limit to the amount of earnings you pay Social Security taxes on each year. Earnings above the limit do not appear on your earnings record. We have combined your earlier years of earnings below, but you can view your complete earnings record online with my Social Security. Social Security taxes You paid: \$75,568 Employer(s): \$77,498 Medicare taxes You paid: \$18,158 Employer(s): \$18,158

#### **Earnings Not Covered by Social Security**

You may also have earnings from work not covered by Social Security, where you did not pay Social Security taxes. This work may have been for federal, state, or local government or in a foreign country. If you participate in a retirement plan or receive a pension based on work for which you did not pay Social Security tax, it could lower your benefits. Learn more at <a href="mailto:ssa.gov/apo-wep">ssa.gov/apo-wep</a>.

#### Important Things to Know about Your Social Security Benefits

- Social Security benefits are not intended to be your only source of retirement income. You may need other savings, investments, pensions, or retirement accounts to make sure you have enough money when you retire.
- You need at least 10 years of work (40 credits) to qualify for retirement benefits. Your benefit amount is based on your highest 35 years of earnings. If you have fewer than 35 years of earnings, years without work count as 0 and may reduce your benefit amount.
- To keep up with inflation, benefits are adjusted through "cost of living adjustments."
- If you get retirement or disability benefits, your spouse and children may qualify for benefits.
- When you apply for either retirement or spousal benefits, you may be required to apply for both benefits at the same time.
- If you and your spouse both work, use the my Social Security Retirement Calculator to estimate spousal benefits.
- The age you claim benefits will affect the benefit amount for your surviving spouse. For example, claiming benefits after your full retirement age may increase the Spouse, if benefits start at full retirement age amount on page 1; claiming early may reduce it.
- If you are divorced and were married for 10 years, you may be able to claim benefits on your ex-spouse's record. If your ex-spouse receives benefits on your record, that does not affect your or your current spouse's benefit amounts.
- Learn more about benefits for you and your family at <u>ssa.gov/benefits/retirement/</u> planner/applying7.html.
- When you are ready to apply, visit <u>ssa.gov/</u> benefits/retirement/apply.html.
- The Statement is updated annually. It is available online, or by mail upon request.

#### Your earnings history directly impacts your future benefits.

Securing today and tomorrow

## What is Social Security?

 After the Great Depression of the 1930s, President Roosevelt signed the Social Security Act on August 14, 1935. Social Security was created to promote the economic security of the nation's people

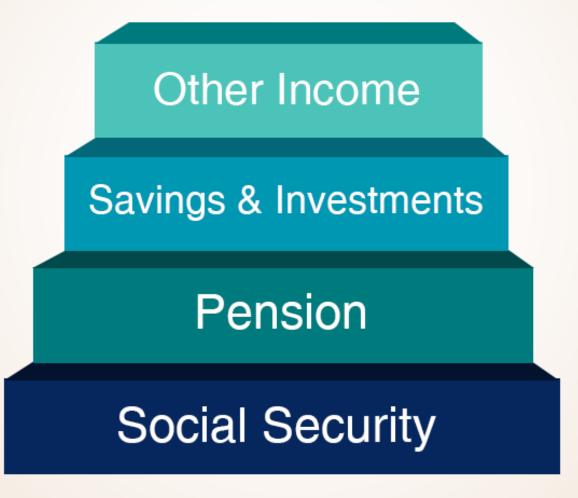

It was designed to pay retired workers a continuing income after retirement

Social Security will replace about 40% of an average worker's pre-retirement earnings

The most successful anti-poverty program in our country's history

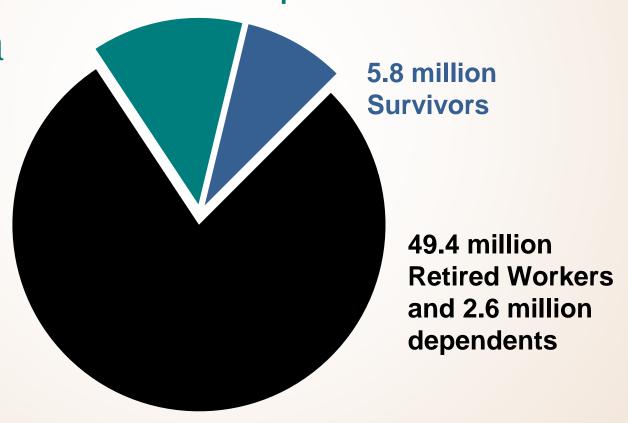

## A Foundation for Planning Your Future

## Who Gets Benefits from Social Security?

Almost 67 million people 7.5 million Disabled Workers and1.2 million dependents

### **Retirement Benefit Statistics**

As of June 2023, **49.4 million retired workers** were receiving **\$90 billion dollars** in Social Security benefits per month.

At the same time, 2.6 million dependents of retired workers were receiving \$2.3 billion dollars in monthly Social Security benefits.

In 2023, about 67 million Americans will receive over 1.4 trillion dollars in Social Security benefits.

## Social Security in the Future

- Social Security is fully funded through 2034.
- Historically, the trust funds have reached the brink of exhaustion of assets, but Congress made substantial modifications to avoid this.
- Even if legislative changes are not made before 2034, the trust funds will still be able to pay 80 percent of each benefit due.

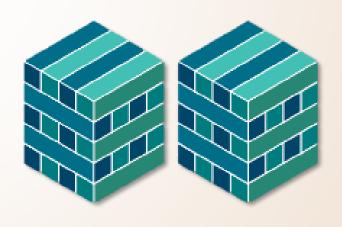

# How Do You Qualify for Retirement Benefits?

- You need to work to earn Social Security "credits"
- Each \$1,730 in earnings gives you one credit
- You can earn a maximum of 4 credits per year

Example: To earn 4 credits in 2024, you must earn at least \$6,920. Earning 40 credits (10 years of work) throughout your working life will qualify you for a retirement benefit.

Year of Birth	Full Retirement Age
1937 or earlier	65
1938	65 & 2 months
1939	65 & 4 months
1940	65 & 6 months
1941	65 & 8 months
1942	65 & 10 months
1943-1954	66
1955	66 and 2 months

1957	66 and 6 months
1958	66 and 8 months
1959	66 and 10 months
1960 +	67

## Your Age At The Time You Elect Retirement Benefits Affects the Amount

#### If You're a Worker and Retire:

- At age 62, you get a lower monthly payment
- At your full retirement age, you get your full benefit
- You get an even higher monthly payment if you work past your full retirement age

## Your Age At The Time You Elect Retirement Benefits Affects the Amount

For example, if you were born from 1943 through 1954		
AGE 62	75% of benefit	
AGE 66	100% of benefit	
AGE 70	132% of benefit	

If you were born in 1956, your Age 62 benefit would be 72.5%

### You Can Work & Still Receive Benefits

#### Monthy Benefit Amounts Differ Based on the Age You Decide to Start Receiving Benefits

## How Social Security Determines Your Benefit

#### Social Security benefits are based on earnings

Step 1 - Your wages are adjusted for changes in wage levels over time

**Step 2 -** Find the monthly average of your 35 highest earnings years

Step 3 -Result is "average indexed monthly earnings"

#### 2024 Retirement Benefit Formula

#### Windfall Elimination Provision (WEP)

- If you work for an employer who doesn't withhold Social Security taxes from your salary, such as a government agency or an employer in another country, any pension you get from that work can reduce your Social Security benefits.
- WEP uses a formula to adjust the Social Security benefits for people who receive "non-covered pensions" and qualify for Social Security benefits based on other Social Security-covered earnings.

Our Online WEP calculator allows you to estimate your Social Security benefit.

#### **Government Pension Offset (GPO)**

If you receive a government pension based on work not covered by Social Security, your Social Security spouse's or Widow(er)'s benefits may be reduced.

#### **How GPO Works**

2/3 of amount of non-covered pension will be used to reduce the Social Security spouse's benefit.

#### **Example:**

2,100 non-covered pension, 2/3 = 1,400

Social Security spouse's benefits = \$1,150

No benefit payable by Social Security

Our Online GPO calculator allows you to estimate your Social Security benefit.

socialsecurity.gov/gpo

#### **Three Important Points**

- If you leave your spouse a survivor's benefit from your public pension, that benefit doesn't reduce your spouse's own Social Security.
- WEP will not be applied until you begin receiving your pension from work not covered by Social Security.
- In fact, the WEP "dies with you" so that your survivor's benefits are higher than you had been receiving.

#### Your Benefits Can Be Taxable

- About 40 percent of people who get Social Security pay income taxes on their benefits.
- At the end of each year, you'll receive a Social Security Benefit Statement (Form SSA-1099). Use this statement to complete your Federal income tax return to find out if you have to pay taxes on your benefit.
- To get a replacement SSA-1099, go to my Social Security at www.socialsecurity.gov/myaccount.
